

News for 05/09/06

Hi again,

Following up on last week's announcement of our new carb lines, we have a couple photos of the work in progress for the 358 Dirt Modified Open Carb Rule. Further below: our big billet with the newly installed skirted boosters for the improved throttle response.

This is your first look at our new light weight float bowls which weigh less than half the standards - now making our dAM carb 4 lbs less than it's competitors!

Your fuel system innovator,
John
