

News for 10/10/06

Hi,

We we've been so happy with the good news our methanol carbs have been generating that we wanted to share this News Letter from August again.

John

Rob from Spraker North has a pair of dAM Mid-size Billets on his Mud Bogger seen here at Ossipee Valley Fairgrounds, Cornish, ME. Just a few accomplishments include 1st place in the Hill Climb at Munson, MA; 2nd place at the sand track in Manchester, NY; and 3rd place twice at Bath, NY in the scoop and cut tire classes.

Tony Osborn of Oklamona won three times four weeks and placed 2nd once. He runs two methanol classes with our medium billet and our skirted booster big billet. (And his brother is kicking butt with one of our gas carbs!) Nice job, guys!

Congratulations to the many folks who are winning with our methanol carbs!

Our multi-fuel carburetors can use a variety of fuels with a simple change of jets and minor tuning. Conversion can be as quick as 20 minutes. With today's ever changing fuel prices and availability, dAM can help you be in control. We currently handle gasoline, methanol and E-85.
