

THE dAMBEST...News for 02/20/07

Hi,

With the advent of 85% ethanol fuel, dAM is preparing the dyno for tuning in a whole new line of carburetors to join our existing lines of methanol and dual fuel carbs. If you have ideas for carb sizes you would like to see in 85% ethanol, please let us know! We invite you to take a look over our history.

John

- dAM techniques and equipment have been featured in motor sport magazines.
