

THE dAMBEST...

News for 05/01/07

Wow weee!

It is an exciting time at dAM! Our new Wet Flow Bench is done. With two real-time data screens, programmable blower motor and record mode, we can take full engine simulation runs on a carb and record them. We are still learning all the capabilities of this remarkable new tool.

We offer it with or without data acquisition. As seen here with mechanical flow raters it is \$27,500. Data acquisition is extra.

John

PS: If anybody has a copy of my 1992 Superflow Presentation on VHS, please contact me.
