Another *dAMBEST* Customer Slashes Record

Hi Again,

In a world where .01 sec improvement is good, .08 sec is just amazing. Jim Ford and driver Doug Doll did just that when they booted the national record from 8.21 to 8.13 sec and bumped the mph from 157.15 to 160+. Congratulations Jim and Doug!

Jim has been using his dAM modified Holley for 3 seasons now, and without touching the carb even for atmospheric adjustments he's gone from winning at the Columbia Sport Nationals to clobbering Atco.

And these records stay! Scott McKay's D/ED has held the record since 2005; his most recent has been holding since 5/6/07 and Cal Hill's I/A record went 3 seasons till an unfortunate car crash kept him from further competition.

That is the best endowment for dAM's small droplet technology: winning races and setting records.

John

PS: \$250 REWARD for a copy of my 1992 Superflow Presentation on VHS!

US Sport Nationals win 2007
