### Carb Class Comments

---

Hi again,

Here are a few comments we have received about the October Carb Tuning Class:

"... enjoyed the class very much and will start putting the things we learned into practice right a way."

"I learned more in your carb tuning class than I have learned in years. With only a handful of people in the class, many in the racing industry are missing out on an education that I have not been able to find anywhere else. Thanks for taking your time to share your hard earned knowledge with me. I hope to return next year."

" Just a short note to say how much I enjoyed the learning experience. Your new carb testing machine is an item needed in every engine builders shop. It substantially reduces carb tuning time on a dyno and engine wear. It allows an engine builder to know the air fuel ratio and carb capabilities before going on the dyno. A wonderful time saving machine."

If there is interest in a 3-day class in July or August 2009, let us know!

Happy New Year,  
John

Dave Orsak at the dAM WetFlow 2000 during the 2007 Carb Class.

PS: \$250 REWARD for a copy of my 1992 Superflow Presentation on VHS!
