dAMBEST 's New 2.375" Butterfly Billet 4500 Carburetor

Hi Everyone!

We've just finished the first of the new 2.375" butterfly 4500's. With a wet flow of 1633 CFM at 17" and dry flow over 1800 CFM at 20", these are meant for single four barrel, tunnel ram manifold engines that make from 1000 to 1400HP. Perfect for Top Sportsman or Top Dragster, where power and throttle response are both a must.

John

3/4 view

Side view, with standard air cleaner height. Can be ordered with raised air cleaner rib for improved air flow.

Top View, showing latest booster assemblies. 34" of booster signal at 10" draw on carb, Wow!!!!!!!!!!!!!!
Wet flow pictures to follow.

Other News

- The best news you can find on the web, [dAMBEST NEWS](#). You can now look at all of the news letters we have ever done on the web.
- You will see me at the Virginia NHRA Points meet May 1-3.
- This year's [Carb Tuning Class](#) is now taking form. It will be in late October, like last year, and it will be a three day course, like last year. We are still considering the days. Last year it was Friday, Saturday and Sunday. This year we are considering Thursday, Friday and Saturday if that is better for everyone.

Great news! **dAMBEST** is now an officially accepted carburetor brand in the Australian National Drag Racing Association, [ANDRA](#)! We are legal in Pro Stock events. Our [4500 Series](#) and [Split 4500 Series](#) carb would be recommended.

PS: \$400 REWARD for a copy of my 1992 Superflow Presentation on VHS!
