

World's leader in Billet Carburetors

News for 10/13/09

## This has been a break through year!

---

Wow what a year!

The *dAMBEST* carburetors are coming into their stride. With the support of our [3000CFM carb testing bench](#), and our forward looking fuel system development, the time for basic carb modifying is OVER! The cost of running today's race engine on the dyno for a week to get a single or pair of carbs tuned is over when purchasing from *dAMBEST*.

When I attend races, I can see race teams are spending their time tuning everything but the carbs. That makes me happy too.

I just want to remind you that custom sizes take about two months to deliver this time of year, and could get longer during the season.

Thanks so much for your support,  
John
