dAM Split 4500 Series Carb

"The switch is on..."

The *dAMBEST* billet carb is the most powerful and responsive carb of its size. These carbs are particularly designed for high HP engines that have to deal with throttle response issues, e.g., Top Sportsman and Top Dragster with automatic transmissions.

Its light weight, patent pending billet housing has 200% more booster signal which, in conjunction with *dAM*'s patented emulsion system, gives about 100 times the emulsification of modified other brands.

dAM has five US patents, and another pending, in fuel emulsion technology incorporated into the metering blocks to reduce droplets to previously unattainable size. Standard hardware makes tuning easy and affordable.
