1006 HP from pump gas!

Hi again,

Peter O'Rourke at Australia's High Performance World dyno'd his 632 ci engine at 1006 HP on pump gas using his new *dAMBEST* carb. "I love the carburetor, the engine is incredibly responsive and I am sure we would not have got the HP without it."

Carb class update: Due to many inquiries, we will hold carb class any time throughout the year when ten people have signed up. Carb class at next year's PRI show is possible too - minus the wet bench. Subject matter can include the new *dAMBEST* E-jet and its software.

Happy New Year,
John
